TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

(L. S.)

To the Inhabitants of the Town of Greenland in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Central School in said Greenland on Tuesday, the ninth day of March next at 10 of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To elect a delegate to the Constitutional Convention.

4. To see what sums of money the Town will vote to raise and appropriate for the repair of highways.

5. To see if the Town will vote to accept State Aid for the construction of Class V roads and raise and appropriate the sum of $110.92 for said purpose.

6. To see what sum of money the Town will vote to raise and appropriate for the support of Weeks Public Library.

7. To see if the Town will vote to raise and appropriate the sum of $500.00 for spraying elm trees.

8. To see if the Town will vote to raise and appropriate the sum of $500.00 for the purpose of rebuilding the dam on

the Winnicutt River. (Inserted by petition of Earle Caswell and 14 others.)

9. To see if the Town will vote to authorize the Selectmen to borrow money on short-term notes in anticipation of taxes.

10. To see if the Town will vote to limit the taking of clams on the Greenland shores of Great Bay to one peck, per person, per tide.

14. To transact any other business which may legally come before this meeting.

Given under our hands and seal, this 16th day of February, in the year of our Lord nineteen hundred and forty eight.

ARTHUR J. SEWALL,
FREDERICK S. BEALS,
ROGER W. CASWELL,

Selectmen of Greenland.

A true copy of Warrant—Attest:

ARTHUR J. SEWALL,
FREDERICK S. BEALS,
ROGER W. CASWELL,

Selectmen of Greenland.

LIBRARY REPORT

The fifty-firt annual report of the Weeks Library as submitted to the Town.

The most important event of the year was the installation of oil heat which is more efficient than the former method and a great labor saver. Perhaps it is more appreciated because of the two or three years of waiting for it. The painting of the outside of the building has restored its attractiveness.

Circulation was smaller than for some years partly because the Library was only open once a week for several months and also Library days have brought the worst weather of the season.

In December the State Library sent a collection of forty of the new children's books for display and for two weeks patrons had an opportunity to look them over. As usual we have taken advantage of the services of the State Library to supply books on request which our limited collection can not provide and collections have been sent through our Library to the school.

In response to an appeal from Save the Children Federation five duplicate volumes of children's books were sent for the use of young people in remote regions of America and these were gratefully received.

Magazines have been contributed regularly during the year by Mrs. Beck, Mrs. Crouch, Mrs. Nelson, Mrs. Rolston and Mrs. Thompson and they have been circulated and appreciated.

SCHOOL REPORT

SCHOOL WARRANT

To the Inhabitants of the School District in the Town of Greenland qualified to vote in district affairs:

You are hereby notified to meet at the Central School in said district on the ninth day of March, 1948, immediately following Town Meeting to act upon the following subjects:

1. To choose a Moderator for the coming year.

2. To choose a Clerk for the ensuing year.

3. To choose a Member of the School Board for the ensuing three years.

4. To choose a Treasurer for the ensuing year.

5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the District.

6. To hear the reports of Agents, Auditors, Committees, or officers heretofore chosen, and pass any vote relating thereto.

7. To choose Agents, Auditors and Committees in relation to any subject embraced in this Warrant.

8. To see if the District will vote to make any alteration in the amount of money required to be assessed for the coming year for the support of public schools and the payment of the statutory obligations of the District, as determined by the School Board in its annual report.

9. Upon petition of Jarib M. Sanderson, et al; To see what action the District will take to prohibit the Selectmen of the Town of Greenland from interfering with the affairs of the School District relative to the Supervision of and control over the Greenland School Building or any part of said Building.

Given under our hands at said Greenland this 25 day of February, 1948.

WILLARD R. PAGE,
CHRISTOPHER W. HARTFORD,
MARGARET S. SWEETSER, Chair.

School Board of Greenland, N. H

A true copy of Warrant—Attest:

WILLARD R. PAGE,

MARGARET S. SWEETSER, Chair.

School Board of Greenland, N. H.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Greenland, N. H.:

I hereby submit my third annual report as Superintendent of Schools.

No school should stand apart from its community as something mysterious and unknown. All citizens should know what the school is doing and be convinced that its program is good. The passage of the two million dollar state aid bill by the last session of the General Court is sufficient evidence that the public is aware of the educational problem in New Hampshire. The appropriation of this money, however, is only the first step in the advancement of education; a much more important step is the manner in which each individual community uses the increased amount of aid. The expressed purpose of this act was to encourage improvement of educational opportunity in each community, and to relieve the school district of excessive tax increases. In other words each community is expected to improve the school program in so far as increased aid will permit.

In the recent report of the Lay-Professional Council to the people of New Hampshire the following uses for state aid funds were suggested:

"provision for more adequate salaries for teachers so that schools may 'attract and hold as high type people in teaching profession as other professional fields and industry,'

provision of better physical plants, especially in rural areas where consolidation cannot take place,

provision for transportation of children to consolidated elementary and high schools,

provision for adequate facilities in buildings to meet the individual needs of all children,

provision for trained workers to help the mentally and physically handicapped,

provision for extended adult education,

provision for better supervision."

The following table shows the amount of State Aid received by each district in Union No. 16 for the school year 1947-1948 as compared with the year 1946-1947:

	1947 1948	1946 1947
East Kingston	4,451.15	1,706.87
Exeter	10,806.54	none
Greenland	9,586.62	3,971.15
Kensington	4,072.26	1,011.25
Newfields	4,611.37	1,079.74
Stratham	5,505.11	2,549.64

The school year 1947-48 opened with one new teacher, Mrs. Christine Chadwick, who replaced Mrs. Berry in grades three and four. Mr. Grilli, Mrs. Mudgett, and Mrs. Blakeney returned as regular teachers, while Miss Thaxter and Mrs. Foster continue as Home Economics and Music instructors respectively. Greenland is fortunate to have an able staff of well trained and experienced teachers who are doing their best to improve the education of their pupils.

The installation of the new boiler and oil burner, together with the insulation of the ceiling, should solve the heating problem which has been unsatisfactory in the past.

The citizens of Greenland can now point with pride to their well kept school building. Mr. White, the faithful and efficient custodian, has worked long hours to keep the building neat, clean and in good repair. Never have I seen

a public building kept in any better condition than the Greenland School during the past year. I hope this effective janitorial service is fully appreciated by everyone.

The large amount of State Aid which Greenland receives should permit a liberal budget for equipment, supplies, and salaries, and thus improve the educational program. To quote the Council on Education of the National Education Association:

"In the long run, in education as in automobiles, one gets about what he pays for . . . In well-financed schools will generally be found the best teachers, excellent buildings and equipment, many fine books, and a well-rounded curriculum. These superior schools will not only give superior instruction in the three R's but will provide health education, character education, and similar instruction which adds up to an adequate school program."

May I call your attention to the reports and tables which follow. These should be of interest to all parents and citizens.

In conclusion, I wish again to thank the citizens of Greenland, the members of the School Board and the teachers for their assistance and cooperation throughout the past year.

Respectfully submitted,

AURA W. COLEMAN,

Superintendent of Supervisory Union No. 16

Greenland, N. H., January 5, 1948

REPORT OF SCHOOL PRINCIPAL

To: The School Board of Greenland, New Hampshire:

I take pleasure in submitting my annual report as principal of the Greenland Central School, the second in the series.

As in my previous report I am going to endeavor to summarize some of the events and activities of the school for the past year. Mr. Coleman will undoubtedly present the details of the business, statistics and other affairs of the school.

The beginning of the school year for 1947 brought one change in the teaching staff. Mrs. Chadwick, a teacher of many years experience, took over the teaching duties of the third and fourth grades. Mrs .Blakeney resumed her teaching duties of the first and second grades; Mrs. Mudgett and Mr. Grilli shared their teaching duties in the four upper grades; Mrs. Mudgett teaching English, Mathematics and Art and homeroom teacher of the fifth and sixth grades. Mr. Grilli teaching Social sciences, Science, and Manual training, and home room teacher of the seventh and eighth grades. This arrangement of departmentalized teaching in our upper grades is resulting in more effective instruction for all pupils in all subjects.

Mrs. Foster, the music instructor, has continued her fine work as in the past. She has stimulated an interest for music appreciation and knowledge of musical instruments by means of phonograph recordings. The use of games and folk dances have made her classes unusually interesting. The school choir consisting of members from the four upper grades is doing fine work.

Mrs. Sheehy, the school nurse, has continued her effective work to keep the health of our boys and girls at its best. Besides her regular visits, physical examinations, classroom talks, private consultations and home visits, she has this year given each pupil an individual Audiometer test. This is a progressive step from the method used in previous years.

The Home Economics course in cooking and sewing under the able leadership of Mrs. Thaxter has, as in the past, continued to produce fine results. This department has use of a modern electric range procured through the courtesy of the New Hampshire Gas and Electric Company. Many pieces of equipment and new utensils have been added this year to enable better teaching of home economic methods. The Home Economic classes outdid themselves this past year by adding to their classwork such projects and activities as luncheons, dinners and a fashion show.

The Manual Training course in woodwork, reestablished in our curriculum last year was continued this year. The department has grown in student body and materials. In this year the department was presented with new tools and equipment to take the place of the obsolete and worn-out tools the department had to work with in the past. A textbook was procured for the course this year. The text gives to the boys the essential background necessary for practical and technical experience.

The Newspaper Club, with Mrs. Mudgett as its advisor was continued this year. As in previous years it has produced fine results. This type of activity not only brings the news and happenings of the school to the boys and girls, but also to the parents and the general public. The club not only inspires literary work and creative ability, but teaches its members the rudiments of newspaper work. As a result of the continuous work of the club, the school

newspaper won third prize of the Columbia Scholastic Press Association. Several of the members of the club went to the annual convention of the association held at Columbia University, New York City.

A new club was started this year for pupil of the four upper grades who are not in the Newspaper club. Under the general name of Hobby Club, it endeavors to create an interest for its members in some type of useful hobby which can be carried on outside of school. The aim of the club is to find some avocation for each member so that idle hands and minds may have some constructive activity to occupy spare of leisure time.

The hot lunch program has once again got underway; this year under the supervision of Miss Thaxter. The progam has been very successful, giving our boys and girls a hot dish for only five cents. This department too, has been fortunate in getting new utensils, dishes, bowls and silverware. The lunch program is a service appreciated by pupils and parents alike. The only regret is that it is not for a longer period of time.

To carry out its safety program the entire school has held several fire drills to familiarize the students with the nearest exits and correct procedure in case of fire. Each teacher has explained fully the safety program to the classes. As an extra precaution the boys of the four upper grades were brought on a tour of the building to familiarize them with the location of fire extinguishers. Two boys were designated to each extinguisher, in case of an emergency. A demonstration of the correct use of the extinguishers was held so that the extinguishers would be used correctly.

Our school playground and equipment is probably made use of more this year than previously. From morning until night some group is making use of the grounds. This is a

very satisfactory outlook and I sincerely hope that this interest and activity continues. As previously, I heartily recommend and endorse the use of our school grounds and equipment to boys and girls of the community even if they are not members of our school; as long as the equipment is used with care and the rules set up abided by. The school has sponsored several athletic teams such as baseball and football which have played schools in this vicinity besides our regular intra-mural games. It is hoped a school basketball team will soon be organized for the winter months.

The building has never been in better condition. The decorating of the assembly hall with a light clean surface has added much to the beauty of the interior and serves as an incentive to the boys and girls to keep their school clean. The insulation of the building last Spring is well proving its effectiveness. From my observation it has been a worthwhile undertaking and will many times repay itself; not only in a monetary sense but also by adding to the comfort and well being of our boys and girls. The installation of a new furnace and oil heating system in the school has given us what few schools possess — an even, well regulated heat with a minimum of work. The installation of a modern heating plant has long been a necessity and I'm sure all who make use of the building are grateful for it.

I stated previously that the building was never in better condition. This is not due alone to the new equipment installed or the decorative and repair work on the building, but to a great measure to the upkeep and care of our custodian, Mr. White. I need hardly enumerate the many things he has done to improve the appearance and cleanliness of our school.

The Parent-Teachers Association which was organized in our school last year has proved how the cooperation of parents and teachers produces outstanding results. The or-

ganization has grown in leaps and bounds; not only in membership but in its activities and plans. The group sponsored the first annual Greenland Parent-Teachers Track Meet and Lawn Fete last May, with five schools participating. This was a big project to undertake for a new organization, but with one hundred percent cooperation from members, it was a big success, netting approximately one hundred dollars to the organization and good will to the school. The Association's project for the year has been a moving picture projector for the school. The projector has been procured and will very soon be in use at the school.

A new course has been added to our curriculum for the seventh and eighth grades this year. The first half of this school year, Junior Business is being taught, and the new course, Civics, in the second half. A new textbook has been procured for the course. The course should prove interesting and worthwhile for a study will be made of government fom the community to national government.

A non-credit, one period a week course has also been added for the seventh and eighth grades. This course, Guidance, endeavors to help our boys and girls with their personal problems. Topics such as manners, courtesy, etiquette, personality, health and vocations are discussed.

To further help our boys and girls along guidance lines, an individual cumulative record folder is being prepared for each pupil in the school. The record folders will follow the pupils from the first to the eighth grade and will include personal information, scholastic record, extra curricula activities, standard test scores and other pertinent data. This is the beginning of pemanent records for our school office.

A standard testing program is being put to effective use this year. The four upper grades have been given standard reading tests and mental intelligence tests, and the entire

school will be given standard achievement tests. This testing program should prove beneficial in the understanding of our boys and girls, their activities, difficulties, and weaknesses and aid us in helping pupils with individual differences.

As in the past the teachers of the school are placing special emphasis in training pupils not only in academic and mechanical skills but also to cultivate the highest ideals of the democratic way of life. Emphasis is also placed on diction, oral reading, handwriting, vocabulary, community and school affairs, self expression, manners, morales, cooperation and good citizenship.

The teachers as always, are giving their utmost efforts to making a constantly improved school and well rounded individuals. They and the superintendent are continuously striving to ferret out the weak points of the school procedure and try to strengthen the weak places in our system.

I wish in closing to express my appreciation to you for your unfailing interest in the professional as well as the material side of the school. My thanks for the splendid cooperation, advice, time and effort that you have contributed unsparingly to the well-being and smooth functioning of our school. I am sure Mr. Coleman and co-teachers desire to be included in this statement and with me pledge our earnest efforts to maintain a happy and efficient school in Greenland.

Respectfully submitted,

JOSEPH H. GRILLI, Principal

Greenland Central School

Greenland, N. H. 1948.

REPORT OF THE SCHOOL NURSE

To the School Board of Greenland, N. H.

Following is the report of the school nurse from January 1947 to January 1948.

At the beginning of the year schools are inspected and fresh first-aid supplies are placed in the schools for the use of pupils.

During the early autumn all children are weighed and measured. Examinations are made of eyes, teeth, hearing, and tonsils. Skin and hair are examined frequently. Immunization against small-pox and diphtheria are recorded. Children are weighed and measured again during the winter and spring terms. All defects found are reported to parents.

All children in grades 3, 4, 5, 6, 7, and 8 were given the audiometer test for hearing.

Following is my report of the annual physical examinations:

Number of children examined		100
Number underweight 10%	7 corrected	2
Number with defective vision	17. corrected	11
Number with defective teeth	41 corrected	9
Number with defective hearing	2 corrected	
Number with enlarged glands	2 corrected	
Number with defective tonsils	10 corrected	4

All children are vaccinated.

I would like to take this opportunity to thank Mr. Coleman, the School Board, teachers, and parents for their cooperation and help with my work.

Respectfully submitted,

ELOISE B. SHEEHY, R. N.

Greenland, N. H., January 12, 1948

REPORT ON HOME ECONOMICS

To the Superintendent of Schools:

The year's activities of the Home Economics class were the regular cooking, sewing, homemaking and housekeeping.

This year we have enjoyed the use of quite a bit of new equipment. We have some much-needed pots, pans and other cooking utensils. Not the least of these is an electric range. It was loaned to the school by the New Hampshire Gas and Electric Company for Domestic Science Department at no cost to the school district. The range, being the most modern, has given the girls the very latest in the principles of cookery, with Miss Dorothy McLaughlin demonstrating all the new angles.

In May, the class held a Fashion Show which was well-attended. Maggie Blythe, of Portsmouth, fitted five of our girls with dresses, came out and showed them just how to model and then gave a talk on style, line and color. We greatly appreciated this help.

The girls made covers for tea tables, made 500 cookies, and served them with tea after the entertainment. This consisted of two sound films on Home Economic subjects, a short skit and the modeling. The girls wore dresses made in class. For Education Week the girls repeated with the tea and cookies for the four higher grades and parents.

In December the girls gave a luncheon with Mrs. Mudgett and Mr. Grilli as guests.

At Christmas they made candy and packed five boxes attractively. These were for the teachers and Mr. White.

I would also like to mention the cooperation of Mr.

White, our janitor. Not only in connection with the activities of the Home Economic classes, but of his great assistance and willingness in helping with the Hot Lunches and the excellent care he has taken of all the equipment connected with these two very necessary school activities.

Respectfully yours,

MABEL E. THAXTER

Greenland, N. H., January 15, 1948.

REPORT OF SUPERVISOR OF MUSIC

To the Superintendent of Schools:

The work in the Greenland school has been a continuation of that which was started last year.

At the beginning of the year each child's voice was tested, and a record is kept of his musical development and knowledge.

The emphasis in the lower grades is made on individual drill to aid the child to find his singing voice. Rote songs and rhythmic work augment this program, simple note reading is started in the second grade.

The third and fourth grades are doing an admirable piece of work in note reading and drill on the fundamentals has been started. Rote songs, rhythmic work and some note writing has been added.

The fifth and sixth grades are continuing their excellent reading and three-part music has been started. Folk dances have been taught and appreciation lessons have been given together with the seventh and eigth grades.

As the upper grades have music only once a week, Mr. Grilli and Mrs. Mudgett have been most helpful in combining the upper four grades when the occasion demanded it. As we have so many excellent singers in the upper grades, I should like to see additional time given to these grades if possible.

May I express at this time my deep appreciation to the faculty, who have given more time than required in extra training for specials occasions; to Mr. Coleman, to the School Board to the parents, to Mr. White, to Miss Hodges for her help with the Christmas program, and last of all to

my grand boys and girls for their excellent spirit and best of all — enthusiasm.

Respectfully submitted

LENA FOSTER,
Supervisor of Music.
